As the army grows on Cahu more need for a centralization of offices arises. Col. Schofield made this clear today in discussing the proposed

"Of course," he said, "the drafting rooms for the constructing quarter-master's department and for the engineers would not be placed in this building, owing to the special type of office needed for this work. However, it is desired to get such offices as possible, together."

At present most of the army offices are in the Young hotel building, some are on Hotel street near the armory and others are along the waterfront.

The officer did not discuss details of the plans. Many of these are yet to be decided. If the structure is pinced with other buildings to form a civic group in the vicinity of the Capitol as announced by the governor yesterday, it will probably be not more than four stories in height, and will be planned to harmonize with neighboring buildings.

On the other hand, if a separate piece of ground is acquired by the government the type of building will be judged accordingly, and will probably be more than four stories in

The deadly charge of the "Princess Pats" at Ypres was not the only war experience of Private de Young. He was a member of this noted Canadian regiment named after Princess Patricia Connaught, daughter of a former governor-general of Canada when it was gassed at Hill 60, on the west front, the first time the Germans used this barbarous form of death. The casualty list from this gas attack was terrific, but de Young's hearty constitution enabled him to fecover to take part in the subsequent Ypres and left for the front 1250 strong. In

A hearing of the case, scheduled for this afternoon, has been postponed until next Friday.

LINER SONOMA RAN AGROUND OFF PAGO-PAGO

It was learned this afternoon that the Oceanic liner Sonoma, while steaming from Sydney to Pago-Pago, ran aground on Turtle Island and stuck fast for an hour, until she floated off after partially emptying her ballast tanks. After freeing herself, the liner went on to Pago-Pago, where a marine survey was made to determine the extent of the damage, which was slight. The local Oceanic agents, C. Brewer & Company, Ltd., did not deny the story, but declined to give out any details. The Sonoma is now halfway to San Francisco, having left here Tuesday afternoon.

### DELIEE BUDIES VETIEL DANIES **AMALGAMATED**

come Auxiliary of American **Red Cross Organization** 

An amalgamation of the War Reief Committee of Hawaii and the Hawatian Allied War Relief, was consumated this morning for the purpose of centralizing and making more effective general war relief work.

The War Relief committee has been, since the outbreak of the great war, collecting and forwarding funds for the relief of suffers in Europe, while the Hawaiian Allied War Relief has devoted its energies to the making and forwarding of supplies. The to-tal amount of cash forwarded by the one body has been approximately \$180,000, while the other has sent in some 129,000 articles of a conservative value of \$31,000. All these articles have gone direct to places where they could do the most good.

Now that America has entered the war, naturally the objects of both branches of work will be primarily for America. With this in view, the War Relief committee has forwarded to Washington an application to become an auxiliary of the American Red Cross, making it the official representative of that great organization

The War Relief committee will henceforth handle the funds for both branches of the work, thus centralizing the financial responsibilities, and relieving the public of some confusion between the two names. The Hawaiian Allied Relief will retain its own organization, but becomes affiliated with the War Relief committee. which, in turn, will soon be the authorized auxiliary of the America Red Cross.

# NATIONAL PARK

Congress will not fail to give Hawati the needed appropriation for the maintenance of its new national park when the necessary conditions have been complied with, declares Delegate J. K. Kalanianaole in a letter to Albert P. Taylor, secretary of the Promotion Committee. The delegate's letter is as follows:

"I note that the Department of the Interior through its bureau of national parks is starting the campaign to secure adequate information concerning the Hawaii National Park as per the information in your letter just received. We have had several communications during the past year with sir. Yard concerning publicity work on our national park, and it certainly gives me great pleasure to know of the progress made. I feel certain that Congress will not fail to give us the needed appropriation when the necessary conditions shall have been complied with.

"I note further that the Burton Holmes Company will, in the near future, give lectures on Hawaii using motion pictures which you state have fust recently been completed. I shall be glad to do what I can to assist in advertising these lectures, and to see a lawful weapon, its use justified mies as would ensure undisturbed that my friends here in Congress are through the fact that unrestricted condit us for the future, such a that my friends here in Congress are given he opportunity of hearing Mr. Holmes when he comes here next winter. > (Associated Press by U. S. Naval Communication Service.) BERLIN, Germany, July 20 .- Defying the orders of the government, the radicals, among them many men prominent in parliamentary affairs, attempted to hold a street demonstration today but were stopped by the calling out of the police, who forced the crowd to disperse and warned the leaders that they would be arrested if the offense were repeated.

> Chancellor Michaelis today addressed the reichstag but did not add details of the peace suggestion as voiced yesterday. Today he upheld the attitude taken by von Bethmann-
